## No School February 16 –President's Day

The snow and COLD is here! If the temperature is below 0 we play in the gym at recess time; if it is above 0 we go outside! Students need to have Warm coats, snow pants, boots, hats, mittens. Please make sure they bring these items everyday-we all know that MN weather can change in a second and we want to be prepared.

Stay warm and have Fun!

Can you help? We are looking for 3 gently used frames for some 6<sup>th</sup> grade artwork. Approximate ideal size would be 22"x30". The frames will be used in a traveling art gallery that our 6<sup>th</sup> graders are working on. Thank you for your help!

Listen in to **WTIP** for Oshki School News!

Monday at 5 pm and  
Tuesdays at 9:10 am.

Every week students will talk about upcoming dates and events. *Check it out, the students are doing a great job!*

If you have a library book checked out and you are done with it-PLEASE bring it back to school. Thank you!

## More Important News

**K-1 NEWS-** Mrs. Swanson: We have begun thinking like scientists! Asking questions and coming up with a hypothesis for that question. Our class came up with a few questions about puffy paint. What is it? One hypothesis was bread! We created puffy paint with 2 different mediums. We discussed which would be puffier, how fast they would dry, and if they would hold their height. It was so much fun! **We are nearing our 100<sup>th</sup> day. Students are so excited for the fact that they are 100 days smarter!! They have learned so much in these 100 days so we will do a little celebration by doing activities throughout the day with 100 in them.**

As a class we have been discussing friendships again, and how our classroom is like a family. We need to treat each other with kindness and follow the Golden Rule "Treat others the way I wanted to be treated". **Happy Valentines' Day.**

**2-3 NEWS-** Ms. Nikki: The last two weeks in second and third grade we started contemplating our science fair projects. Please talk to you child about his or her project. If you have not sent in the science fair planning form please do so as soon as possible. Our second quarter conference and game night was a success. I am again impressed with the turnout in the second and third grade classroom. Thank you for being so supportive of your child's education.

The students have spent a bit of time working on their invention research this week as well. We are hoping to make a slide show on the computer and also make them into books. In math the second graders are working on solving numbers stories and they are getting ready for multi digit addition. In third grade math it is multiplication time. They are solving multiplication number stories and creating arrays to show multiplication problems.

**Next Thursday, February 19th we will celebrate the 100th day of school! Your child has been asked to bring in 100 things in a small baggie to celebrate this day. Please have him or her bring these in if you have not done so. We will also read for 100 minutes! You are welcome to join us at 2:00 in the afternoon for our read-a-thon if you would like.**

**4-6 NEWS-**Mr. Keith The past week has been a busy one in the upper grades with students spending a lot of their time focusing on a science fair project. Each student has picked a topic that they are interested in for the science fair, and has a plan on how to move forward with their research. We have talked as a class to Trust Lands to see how they use the scientific method everyday at work. We have been evaluating some experiments in the class revolving around food and how it can spoil faster or slower depending on the environment it is put in. We look forward to all the fun topics we get to learn about in the coming months.

## School Lunch Feb 16-20

**Monday** NO School

**Tuesday** BBQ Beef on Bun,  
Tater tots, Corn, Pineapple  
Milk
