boat to stock Brook Trout in to Lake  
Superior!**

**It is very important to DRESS APPROPRIATELY to be  
out on the lake. Life Jackets will be provided.**

## More Important News

**K-1 NEWS- Mrs. Swanson:** This week has been filled with exciting things happening in our classroom! We had step-up day on Tuesday and all the students did such a great job. The first graders were so excited to share what they did in Miss Nikki's room with us Wednesday morning. They had a wonderful time learning in a new classroom. The Kindergarten girls really enjoyed having the head start class come over as well.

On Wednesday we had a chance to go over to the blueberry field and learn a few things from the Trust land people and fire department. The students were able to see a burn line, watch a fire get put out and learn about the vehicles they use when out on a fire call. The students had a wonderful time learning and having a chance at spraying the fire hoses!

Academically we have been busy finishing up our work as well. We had our final spelling test this week and we are still reading to the elders. In math we spent some time on fractions and fact families. We also have been completing math sentences with addition and subtraction.

One week left of school and it will be a busy one.

**2-3 NEWS- Ms. Nikki:** What a great year in second and third grade. I am very proud of the whole class! Everyone has worked so hard and made great gains in reading, math, science, social studies and life skills as well. Thank you for the honor of teaching your child this year. Being their teacher has truly been a pleasure and a gift.

Quarter four grades will come to you after school is out. If you have any questions please don't hesitate to call the school and I will get back to you about them.

Next week your child will be bringing many things home including art work, reading work, math, writing and other odd and ends. I will try to make sure that all of his or her things get home to you. If you are missing anything let me know.

If your child still has a math reference book or any other school books or property please send them to school right away.

Summer vacation is an important time for kids to focus on social skills and have a break from school. However, students can lose a lot of their hard earned growth in academic areas over the summer. Just a little reading, math and writing work every week can make a big difference. Your child will have math books that he or she can work in over the summer. I will also send each child home with some leveled reading books for him or her to read. Please encourage your child to engage in activities that involve reading, math or other academic learning at least a few times a week. If you need more information or ideas for what your child should or could work on this summer please give me call at school.

Thank you again for a great year and I wish you a safe and fun summer.

Sincerely, Ms. Nikki

Students from Myers-Wilkens Elementary School in Duluth visited at OOCs on Thursday, we showed them how to do some beading and then they showed us some drumming and dancing and let us play the drums and other percussion instruments. It was so fun meeting kids from other schools!
