-Daniel will reach out to see if the bead work can be made by the last of school

The parents at this time still require access to the Life Touch account to begin creating the year book. Since the school is coming close an end, the parent committee will plan to complete the year book this spring. And have it ready for distribution on the first day of the 2021-2022 school year.

-At this time since the parent committee would like to meet and begin selecting pictures for the yearbook via zoom. We hope to meet with the next week or two.

-Krysten would like to have a cover art contest for the cover of the year book, and the remaining art will be placed throughout the year book as well.

-We would also like to have a page with a class picture and have the students can sign their name

-We'd also like to have the graduates featured in the year book as well, where they can share a short bio and their future ambitions

-Krysten will email Carmen in regards to the cover content and graduation feature
